Yr 2 Geography: Amazing Africa

The "Big 5" animals of Africa

Africa is one of the seven continents of the world

- There are 54 countries in Africa.
- The equator runs through Africa, so the weather is mostly hot and dry.
- The north of Africa is mostly desert, and the south has more jungles, plains and rainforests.
- Some parts of Africa are very poor, and children may not get the chance to go to school.

African landmarks
